Purpose

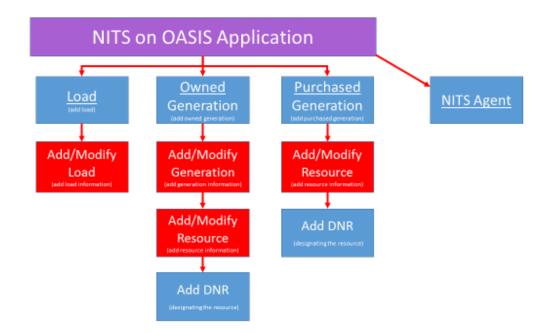

This document defines the necessary steps required for a network transmission customer to renew, terminate, or modify a request for Network Integrated Transmission Service (NITS) using the NITS on OASIS templates. Timing requirements and required fields are outlined as well.

Background

Requirements

- Access to OASIS:
 - o https://www.oasis.oati.com/cgi-bin/webplus.exe?Script=/woa/woa-login.wml

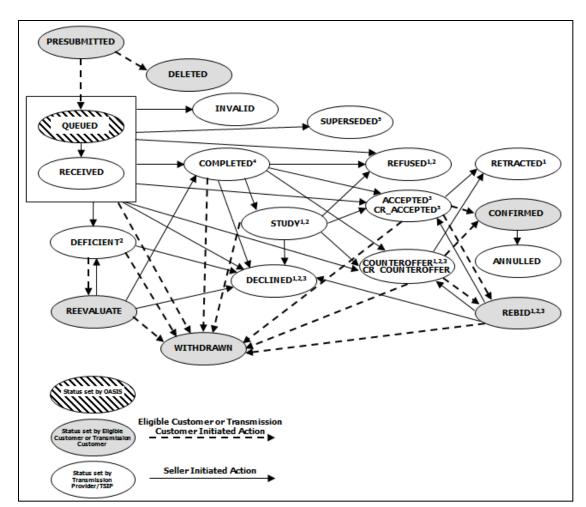

Process Flowchart

IITS Load Description	SNICKERS_CSWS	Load Area Load Voltage	SWPP			Sink: Forecast Method	

Figure 3: In this example, Load Request Snickers_CSWS can be modified for effective start and stop dates, pending validations.

- 7. When all required fields are completed (highlighted in example above), select the Submit icon at the upper, right-hand side of the template
- 8. A "Save" window will open containing the "AddNITSLoad" Assignment Ref and the "Application Ref" it was added to.

Section 3a: Required Fields for "Add/Modify Load"

- 1. Provider: For SPP customers, this field will be "SWPP"
- 2. Application Ref: The Application Ref # associated with the load request
- 3. Load Name: A name that will describe the load being added to the NITS application. Once you enter the load name and submit, the Load name will be populated in NITS Load Description section, and other items in the Application Fields should be completed now.
- 4. Status:
 - 4.1. Queued: If this option is selected, once you hit submit, the application will go into a queued state and if everything is completed correctly will automatically go to either an "Accepted" state or to a "Confirmed" state depending on your selection in the "Preconfirmed" field
 - 4.2. Presubmitted: If this option is selected, when you hit submit, the application will be saved and the customer can continue working on it until it is ready to be submitted in a "Queued" state
- 5. Preconfirmed:
 - 5.1. No: Customer will need to "confirm" request once it has been accepted
 - 5.2. Yes: Request will automatically go into a "Confirmed" state if everything is completed correctly
- 6. Load Area: If within SPP footprint, use "SWPP," otherwise, use the registered area in OASIS for the load
- 7. POD: The OASIS Point of Delivery for the request
- 8. Sink: The OASIS Sink for the Load request
- 9. Forecast Method: Use "ON_OASIS" to place forecast in OASIS, otherwise use "OFF_OASIS"
- 10. Effective Start Time: Must be submitted no later than 60 days in advance of queue date.
 - (For Renewals, Tariff Requirements in Section 2.2 will apply.)
- 11. Effective Stop Time: Cannot be less than 1 year after start date

Section 3b: Optional Fields for "Add/Modify Load"

- 1. Customer Comments: optional field for customer use
- 2. Load Description: optional field for Customer use.
- 3. Load Substation: optional field
- 4. Load Voltage: optional field

Section 3c: <u>Do Not Change</u> Fields for "Add/Modify Load"

- 1. Status Comments: Please do not populate this field
 - 1.1. This field will describe any errors encountered once the request has been submitted
- 2. Provider Comments: Please do not populate this field
- 3. Seller Comments: Please do not populate this field
- 4. Load Type: Use Default (FIXED) do not change

Figure 6: In this example, King Candy, has Renewed Resource Designation Request for Payday_1

- 5. When all required fields are completed (highlighted in example above), select the Submit at the upper, right-hand side of the template
- 6. A "Save" window will open containing the Application Ref and the Assignment Ref (TSR number) related to the NITS Application.

Save		\mathbf{X}
(į)	New DNR with Assign Ref=70587764 has been added for Application Ref=2298.	
	ОК	

Figure 7: You will need the Application Ref for all other request templates related to this service ("Add/Modify Load," "Add/Modify Generation," "Add/Modify Resource" and "Add DNR")

Page 22 of 31

Section 6a: Required Fields for "Add NITSDNR"

- 1. Provider: For SPP customers, this field will be "SWPP"
- 2. Application Ref: The Application Ref # associated with the generation request
- 3. Resource Name: selected from drop-down menu
- 4. Status:
 - 4.1. Queued: If this option is selected, once you hit submit, the application will go into a queued state and if everything is completed correctly will automatically go to either an "Accepted" state or to a "Confirmed" state depending on your selection in the "Preconfirmed" field (see item 3 below)
 - 4.2. Presubmitted: If this option is selected, when you hit submit, the application will be saved and the customer can continue working on it until it is ready to be submitted in a "Queued" state
- 5. Preconfirmed:
 - 5.1. No: Customer will need to "confirm" request once it has been accepted
 - 5.2. Yes: Request will automatically go into a "Confirmed" state if everything is completed correctly
- 6. DNR Action: select "DESIGNATION"
- 7. POR: Point of Receipt
- 8. Source: Registered OASIS Source name
- 9. Attested: This field must be changed to "Yes"
- 10. Attestor Name: Should be a person with the authority sign the Attestation form
- 11. Attestation Submitter: Should be the user creating the Application in OASIS
- 12. Start Date: Cannot be in the past (no earlier than 6 months after start of Aggregate study) (For Renewals, Tariff Requirements in Section 2.2 will apply.)
- 13. Stop Date: Cannot be less than 1 year after start date
- 14. Gen Name: Must match the name you created in the Generator Details section
- 15. Capacity Requested: Amount of capacity to be studied for service

Section 6b: Optional Fields for "Add NITSDNR"

- 1. Customer Comments: Any notes the customer would like to add to the request
- 2. Filing Status: optional field

Section 6c: Do Not Change Fields for "Add NITSDNR"

- 1. Status Comments: Please do not populate this field
- 2. Provider Comments: Please do not populate this field
- 3. Seller Comments: Please do not populate this field
- 4. Customer Statement: Please do not modify this field

VIEW NITS APPLICATION SUMMARY

To view all service details for Load, Generation Details and Resource Details associated with a NITS application, please use the following steps:

Please note: Requests in the following States will be available in the summary view:

- 1. Confirmed
- 2. Completed
- 3. Study
- 4. Deficient

Application Summary

- 1. Log into OASIS: https://www.oasis.oati.com/cgi-bin/webplus.exe?Script=/woa/woa-login.wml
- 2. In "Transactions" under NITS, select "Application Summary"

DEFICIENT REQUESTS

If a field is incorrectly populated when submitting a request in any of the NITS on OASIS templates, it will come back in a "Deficient" state.

Some items that will cause a template to fail are:

- 1. Timing requirements have not been met
- 2. Attestation was not completed for:
 - a. NITS Application
 - b. DNR Request
- 3. DNR Designated Capacity amount > Generation Eligible Amount

If your request comes back "Deficient" please review the "Required Fields" section associated with the "Deficient" request.

To correct the error(s), the request can be edited and then submitted for "Re-Evaluation" by using the following steps:

Correcting a Deficient Request

- 1. Log into OASIS: https://www.oasis.oati.com/cgi-bin/webplus.exe?Script=/woa/woa-login.wml
- 2. In "Transactions" under NITS, select "Request Summary"

- 7. The above request is deficient for 2 reasons:
 - 7.1. Effective Start Time is in the past
 - 7.2. No resource forecast was included with the request
- 8. To correct the errors, select the Edit \Box icon at the upper, right-hand side of the template
 - 8.1. Update the "Effective Start Time" to be 24 hours after the queue time of the request
 - 8.2. Add the Summer and Winter forecasts
 - 8.2.1.Make sure the Start and Stop time are updated to reflect the span of the forecast being submitted
- 9. Once these updates have been made, select the Submit 🥝 icon at the upper, right-hand side of the template
