Subject: DISIS-2016 Affected System Limited Operations

Dear Jennifer:

Associated's evaluation of the AECI/AFS DISIS-2016 generators listed in Table 1 of Attachment 1, yielded no need for limited operations prior to March 1, 2024. Associated may re-assess the need for limited operations as generators from Table 2 are added to the list of in-service projects and as affected system network upgrades are placed in service.

Please post or notify the SPP interconnection customers as necessary. I appreciate the continued generator interconnection coordination between SPP and AECI.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Todd Tolbert', is written over a faint, larger blue signature.

Todd Tolbert
Manager

Cc: Chris McGeeney, VP
Jon Boessen, Sr. Engineer
